# PAW - Shelter and healthcare services

**About our Shelter:**

Arjun Reddy (Chief Executive Officer)
Udit Thapa (Executive assistant)
Akshat (Healthcare and Food manager)

PAW provide shelter and healthcare to dogs that needs our help. We believe animals are people too, like us they have the right to life, liberty and to live a happy life. Our shelter-cum-healthcare is anticipated to work for 24x7 that would give, rescue, proper care, home, food, playing time, serve as a holding centre for animals of cruelty cases and various other activities.
So our company decided to make a website which will take care of these dogs and give shelter to them via the website, targeting a large audience.

**Requirements:-**

1) At home page 2 forms are required:
      i) to request shelter service, it should include following fields:-
            Name of the animal handler
            Info of the handler (Contact Number, E-mail, Address)
            Reason of leaving your dog to the shelter
            Number of days (option to leave the dog permanently)
      ii) info of the dog:-
            color
            breed
            age
            health

2) Articles page
      On this page various articles for the owners to take proper care of their dogs will be there. For now you can use dummy text and images.

3) Dog food page
      Display the various dog food suitable for various breeds of dogs in the form of cards along with their price and details.

4) About us
      About our shelter
